

Wishes and actions

1. Clarify the vision, concept development

SimSuperGrid; need competing/alternate visions

2. Get a flow of resources into the field

RFPs on specific technical questions

Lobbying for \$\$ (Congress)

Champions

3. Demonstrations & Prototypes

“Table top” devices for research, education, showing
400 meter

3. Lift Public Understanding

(including engineers’ understanding of public preferences)

Value proposition, sales pitch; Magazine articles, TV?

4. Community building

Websites

Research network, working groups, university consortium

Workshops SG3? In Wash DC? With alternate visions

5. NAE/NRC study? Supported by EPRI, DOE, DHS, private sources
